**Unit 1.1 - Place
Value**

25.08.2026

WALT: Round numbers with two decimal places to the nearest tenth or whole number.

WALT: Round numbers with two decimal places to the nearest whole number.

**With support,
I can round
decimal
numbers.**

**Independently,
I can round
decimal
numbers.**

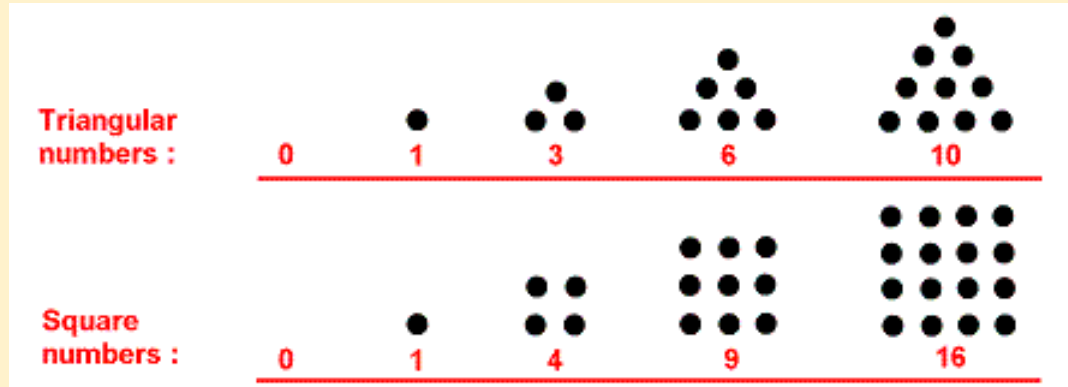

**I can think of
my own game
to help teach
rounding
decimal
numbers.**

WALT: Round numbers with two decimal places to the nearest whole number.

Retrieval Practice - Square and Triangular Numbers

Explain the difference between square and triangular numbers.

Triangular numbers are made by adding consecutive counting numbers, forming a triangle dot pattern.

Square numbers are made by multiplying a whole number by itself. This makes a grid array.

WALT: Round numbers with two decimal places to the nearest whole number.

Starter – Round this number to the nearest...

a) 10 8,750

b) 100 8,700

c) 1,000 9,000

8,745

WALT: Round numbers with two decimal places to the nearest whole number.

Rounding makes it easier to describe and understand numbers.

Rounding to the nearest whole number

When we round a decimal number to the nearest whole number, we need to look at the **tenths** place value column.

This will tell us which way we round.

3.**2**8

We need to look at the tenths

3.28 rounded to the nearest whole number is

3

WALT: Round numbers with two decimal places to the nearest whole number.

Let's round this decimal number together to the nearest whole number.

5.86

6

Plenary - <https://wordwall.net/play/13088/125/5562>

The image shows a word wall plenary activity board. On the left, there is a grid of 12 notepad cards, each with a number and a rounding instruction. The cards are arranged in three rows and four columns. The first row contains: 123.5 to 124, 7.90 to 8, 7.90 to 7.9, and 20.99 to 21. The second row contains: 23.51 to 23.5, 3.45 to 3, 34.68 to 34.7, and a card that says 'Rounded to the nearest whole number'. The third row contains: 3.45 to 3.5, 0.36 to 0.4, 0.43 to 0.4, and 34.68 to 35. To the right of the cards, there are two columns of empty boxes for student responses. The first column is labeled 'Rounded to the nearest tenth' and the second column is labeled 'Rounded to the nearest whole number'. Each column has two rows of three empty boxes each.
