

Find the value of the variables.

a) $7 + x = 20$

$x =$ _____

b) $45 - r = 37$

$r =$ _____

c) $t - 30 = 20$

$t =$ _____

d) $6g = 24$

$g =$ _____

e) $50 = 20 + 5 + d$

$d =$ _____

f) $u - 7 = 34$

$u =$ _____

Write an expression to fit the descriptions.

For example:

15 more than a number.

$15 + f$ or $f + 15$

a) 10 more than a number.

b) d plus 25

c) 50 increased by h

d) The total of 17 and a number.

e) The product of 5 and n.
