

Homework

Unit 4 and Unit 6 Revision

Name: _____

UNIT 4 — ADDITION AND SUBTRACTION (1)

Q1. Calculate the sum of -6 and 8.

Q2. Calculate: $10 - (-6)$.

Q3. a) Estimate the value of $89.24 - 31.85$ by rounding each number to the nearest whole number.

b) Calculate the exact answer and compare it with your estimate.

Q4. Mr. Jon scuba dives to 50m. Mr. David dives to 17m. What is the difference between the two dives?

Q5. Fill in the missing number: $-7 + \underline{\hspace{1cm}} = -3$.

Q6. What is the value of y in $9 + y = 13$.

Q7. What is the missing value?

$$C - 25 = -10$$

Q8. Write an expression that has a variable and an operator.

Q9. At sunrise, the temperature in a mountain village was -2.5°C . By midday, the temperature had increased by 8°C . What was the temperature at midday?

Q10. In a board game, correct answers add points and incorrect answers subtract points. Leo starts round two with a score of -15 points. He gets his next question wrong and loses 25 points. On his final turn, he answers a bonus question correctly and gains 50 points. What is Leo's final score?

SECTION 2: UNIT 6 — FRACTIONS AND PERCENTAGES

Q11. Simplify the fraction $18/24$ to its simplest form.

Q12. Which value is larger: $7/10$ or 68% ? Show your working.

Q13. Order the following numbers from smallest to largest:
 0.6 , 65% , $5/8$, $1/2$

Q14. Calculate $4/7$ of 56.

Q15. Calculate 35% of \$240.

Q16. Find 12% of 300 kg.

Q17. Express 15 out of 25 as a percentage.

Q18. In a primary school of 420 pupils, $\frac{3}{7}$ of them travel to school by bus. How many pupils travel by bus?

Q19. A winter coat originally priced at \$120 is on sale with a 25% discount. Calculate the sale price of the coat.

Q20. Oliver has 80 marbles. He gives $\frac{2}{5}$ of his marbles to his younger brother and 25% of his original total to a friend.

- a) How many marbles does he give away in total?
- b) How many marbles does Oliver have left?

Q21. In a survey of 30 pupils, 40% chose pizza as their favourite school meal, $\frac{1}{3}$ chose burgers, and the remaining pupils chose pasta. How many pupils chose pasta?

Q22. A local bakery baked 150 loaves of fresh bread in the morning. By 2:00 p.m., 65% of the loaves were sold. How many loaves of bread were sold?

Q23. Emma spent $\frac{2}{8}$ of her weekly allowance on a book and 50% of her allowance on healthy snacks. What fraction of her allowance does she have left? Give your answer in simplest form.
