Retrieval Practice

The gold ring

Sixteen-year-old Monika Levin lives on a farm in the north of Sweden with her family. One day, about ten years ago, Monika was in the kitchen with her mother, Ulrike, and they decided to make a cake together. At the time, Ulrike was wearing the gold ring which her husband gave her when they got married.

Monika remembers that her mother wanted to keep the ring clean, so she took it off her finger and put it on the kitchen table. But after they put the cake in the oven and tidied up the kitchen, they saw that the ring was gone! They looked everywhere – on the floor, behind the cupboards – but couldn't find it.

WALT: Write a sequence of instructions.

This image shows a blank worksheet template designed for a 2x3 grid of rectangles. Each rectangle is divided into two main sections: a large, empty rectangular area at the top for drawing, and a section at the bottom containing four horizontal lines for writing. The grid is organized into two rows and three columns, providing a structured space for students to illustrate and describe their work.
