

Maths

Unit 1.1 - Place
Value

20.08.2026

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

**With support, I
can multiply and
divide decimal and
whole numbers by
10, 100 and 1,000.**

**Independently, I
can multiply and
divide decimal
and whole
numbers by 10,
100 and 1,000.**

**I can write my
own question
when given the
answer.**

Homework

Complete pages 9 – 13 in your Workbooks.

Due – Tuesday 25th August 2026.

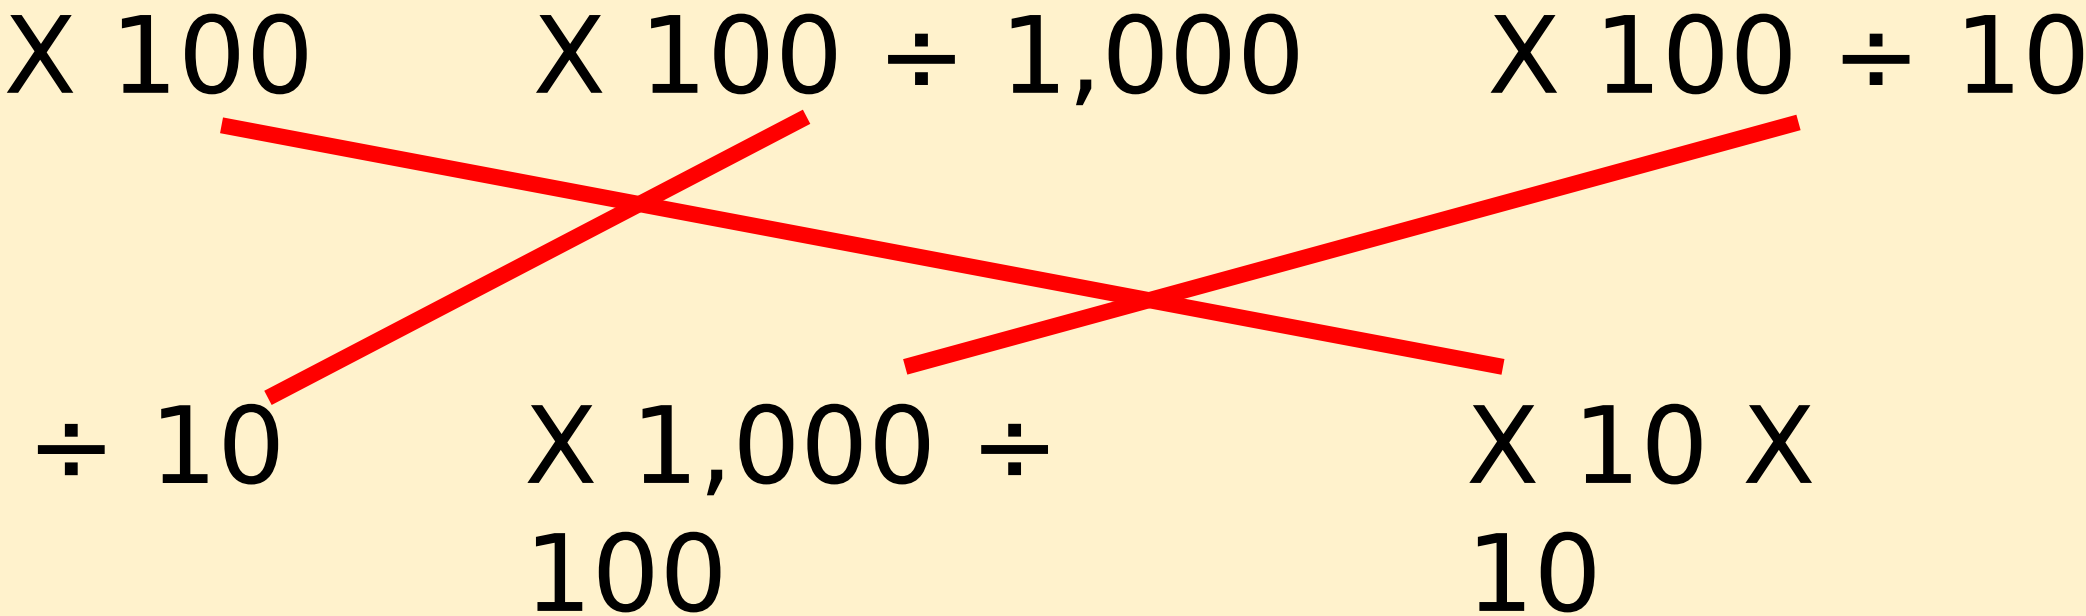

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Retrieval Practice -

<u>Last Lesson</u> What is the value of the underlined number? 33,234.<u>539</u> 9 thousandths 0.009	<u>Last Lesson</u> Mr. Jon thinks of a number. • It is greater than 45. • Has an even number in the tenths and hundredths. • Rounds to 60 when rounding to the nearest 10. What could his number be?
<u>Last Year</u> Here is a sequence: 1, 5, 9, 13, 17 The rule is 'add 4'. Write the next 3 terms. 21, 25, 29	<u>Last Year</u> Write the number in words and digits. 40,000 + 5,000 + 80 + 0.2 Forty-five thousand and eighty, point two. 45,080.2

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Starter – Match the equivalent calculations.

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we multiply by 10?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s

We move every digit one place to the left.

$$54.2 \times 10 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we multiply by 100?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						●			
						●			
						●			

We move every digit two places to the left.

$$54.2 \times 100 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we multiply by 1,000?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						•			
						•			
						•			

We move every digit three places to the left.

$$54.2 \times 1,000 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Check your understanding

On your place value grids complete these calculations.

a) $36 \times 100 = \mathbf{3,600}$

b) $0.43 \times 10 = \mathbf{4.3}$

c) $5.921 \times 1,000 = \mathbf{5,921}$

d) $22.32 \times 1,000 \times 10 = \mathbf{223,200}$

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						•			
						•			
						•			

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we divide by 10?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						•			
						•			
						•			

We move every digit one place to the right.

$$46,321 \div 10 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we divide by 100?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						●			
						●			
						●			

We move every digit two places to the right.

$$46,321 \div 100 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

How do we divide by 1,000?

100 000	10 000	1 000	100	10	1		0.1s	0.01s	0.001s
						•			
						•			
						•			

We move every digit three places to the right.

$$46,321 \div 1,000 =$$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Check your understanding

On your place value grids complete these calculations.

a) $56,221.3 \div 100 = 562.213$

b) $56 \div 10 = 5.6$

c) $1,092 \div 1,000 = 1.092$

d) $2,345 \div 1,000 \times 100 = 234.5$

100 000	10 000	1 000	100	10	1	0.1s	0.01s	0.001s

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Work
with me.

Work
independently.

Find the missing numbers.

a) $56.602 \times 1,000 =$

b) $789 \div 100 =$

c) $0.078 \times 10 =$

d) $0.95 \div 100 =$

e) $8.345 \times 100 \div 1,000 =$

Look at these number cards. Write the correct letter of the card next to the correct sentence.

A

6.1

B

61

C

610

D

0.61

- a) One hundredth of 61
- b) One thousand times bigger than 0.061
- c) The number one hundred times smaller than 610.
- d) Write your own sentence for the card that is left.

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Work
with
me.

Work
independently.

Find the missing
numbers.

a) $56.602 \times 1,000 =$

56,602

7.89

b) $789 \div 100 =$

0.78

c) $0.078 \times 10 =$

0.0095

d) $0.95 \div 100 =$

0.8345

e) $8.345 \times 100 \div 1,000$

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Look at these number cards. Write the correct letter of the card next to the correct sentence.

A	B	C	D
6.1	$\begin{matrix} 6 \\ 1 \end{matrix}$	610	$\begin{matrix} 0.6 \\ 1 \end{matrix}$

- a) One hundredth of 61 **D**
- b) One thousand times bigger than 0.061 **B**
- c) The number one hundred times smaller than 610. **A**
- d) Write your own sentence for the card that is left.

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

**With support, I
can multiply and
divide decimal and
whole numbers by
10, 100 and 1,000.**

**Independently, I
can multiply and
divide decimal
and whole
numbers by 10,
100 and 1,000.**

**I can write my
own question
when given the
answer.**

WALT: Use knowledge of place value to multiply and divide whole numbers by 10, 100 and 1,000.

Plenary -

There are ten buses in the carpark.
Each bus has ten people on it.
Each person has ten fingers.

One bus drives away. One person gets off one of the remaining buses and leaves the carpark.

How many fingers are left in the car park?

890 fingers
