8.1 – Adding and subtracting decimal numbers.

6Np.03 – Compose, decompose and regroup numbers, including decimals.

11. Circle the following answer which is equal to 7.402? (1 mark)

7 + 0.4 + 0.2	7 + 0.4 + 0.02	7 + 0.4 + 0.002

12. Write the missing numbers. (2 marks)

54.632 = 50 + 4 + _____ + 0.03 + _____

13. Compose 60 + 3 + 0.06 + 0.007. (1 mark) _____

6Nf.09 – Estimate, add and subtract numbers with the same or different numbers of decimal places.

14. Mr. Jon says, “0.3 + 0.26 is 0.29.” What mistake has he made and what is the correct answer? (2 marks).

_____

_____

_____

15. Complete the following calculations (4 marks).

a) 65.87 + 23.28 =	b) 786.74 – 235.69 =
c) 45.387 + 23.4 =	d) 678.802 – 342.23 =

16. Mr. Jon and Mr. Conor want to raise some money for charity. Their target is $500.

Mr. Jon has raised $165.47

Mr. Conor has raised $232.5

How much more money do they need to raise to meet their target? (2 marks).

$_____

8.2 – Adding and subtracting fractions.

6Nf.05 – Add and subtract fractions with different denominators.

17. Complete the following calculations. Remember to **simplify** the fractions and write your answers as **mixed numbers** if appropriate. (4 marks)

a) 2/9+ 1/2=	b) 7/10- 1/3=
c) 5/7+ 5/6=	d) 1 1/4- 3/5=

18. a) Mr. Matthew, Mr. Jon and Mr. David are asked to add 2/3 and 3/4 . Circle the teacher who gave an **incorrect** answer. (1 mark)

Mr. Matthew: 17/12 Mr. Jon: 5/7 Mr. David: 1 5/12

b) Explain why the other two answers are **both** correct. (1 mark)

_____

_____

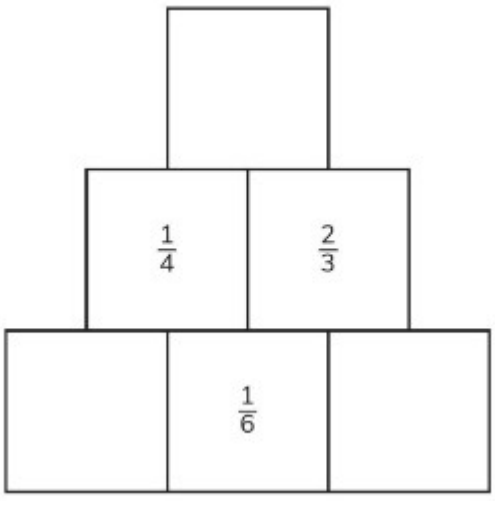

19. Mr. Conor counted what the different colours of sweets in his bag were.

1/3 were blue. 1/4 were red. 1/6 were green.

The rest were yellow. What fraction of the sweets in the bag were yellow? Write your answer in its simplest form (1 mark.)

_____

20. In the diagram, the fraction in each box is the sum of the two numbers below it. Complete the diagram with the missing fractions.

Unit 3.1 – Mode, median, mean and range

6Ss.03 – Understand that the mode, median, mean and range are ways to describe and summarise data sets. Find and interpret the mode (including bimodal data), median, mean and range, and consider their appropriateness for the content.

1) Mr. Jon and Mr. Cornel go to the gym each week. Below is a table showing how many hours per week they went to the gym.

Week	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**	**10**
Mr. Jon	5	4	7	3	5	6	5	9	2	5
Mr. Cornel	4	5	8	8	5	8	6	4	6	7

a) What was the mean number of hours Mr. Jon went to the gym? (1 mark) _____

b) What was the mode number of hours Mr. Cornel went to the gym? (1 mark) _____

c) What was the median number of hours Mr. Jon went to the gym? (1 mark) _____

d) What was the range of the number of hours Mr. Cornel went to the gym? (1 mark) _____

e) Tick the true descriptions of the data in the table. (3 marks)

Mr. Jon had a higher range therefore he spent more time in the gym than Mr. Cornel.	
Mr. Cornel's mean is higher than Mr. Jon's, therefore he went to the gym more every week.	
Mr. Cornel's median is higher than Mr. Jon's.	

2) Below is a table showing the yearly salaries of the employees in a company.

Employee Number	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**
Salary	**$24,750**	**$20,000**	**$1,350,000**	**$30,250**	**$19,000**	**$21,300**	**$27,600**	**$18,500**

a) Which would be the best average to use to represent this data? Explain your answer (2 marks)

_____

_____

b) Give a reason why there is not a mode for this data set. (1 mark)

_____

3) 5 students did a test. The mean score was 8. Four of the results were 6, 7, 9 and 10. What was the fifth score? (1 mark)

_____

4) Below is a table showing the number of books read in the first 6 months of the year by Ms. Colette and Ms. Alice.

Month	January	February	March	April	May	June
Ms. Colette	3	5	4	7	6	5
Ms. Alice	2	1	3	2	3	1

a) Write **two** sentences describing the amount of books read by Ms. Colette and Ms. Alice. (2 marks).

1. _____

2. _____

b) Mr. Jon says, “Ms. Colette reads more books that Ms. Alice every month. This means he spent more time reading than Ms. Alice from January to June.” Give **two** reasons why Mr. Jon could be wrong. (2 marks)

1. _____

2. _____
