

Maths

Unit 2 - Numbers and
Sequences

03.09.2026

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

**With support, I
can complete a
table about
cube numbers.**

**Independently,
I can complete
a table about
cube numbers.**

**I can solve and
write my own
riddles about
cube numbers.**

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

Retrieval Practice

Draw a line to match each number to the correct description.

136 tenths

1064 hundredths

125 tenths and 42 hundredths

1 ten and 75 tenths

1 ten, 40 tenths and 36 hundredths

Greater than 13.56

Less than 13.56

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

Starter – Last lesson we learned that 4^2 is 4×4

What do you think 4^3 means?

$4 \times 4 \times 4$

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

When we multiply a number by itself 3 times we say it is cubed.

Imagine a cube that is 3 units in all 3 dimensions.

$$3^3 = 3 \times 3 \times 3$$

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

Check your understanding

How many different ways can you write 4^3 ?

$$4 \times 4 \times 4$$

$$64$$

$$4^2 \times 4$$

$$16 \times 4$$

$$4 \times 16$$

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

Complete the table with support.

Complete the table independently.

Solve this riddle.

I am a cube number.
I am odd.
I am less than 50.
I have 2 digits.
What number am I?

Write your own riddle.

1^3	$1 \times 1 \times 1$	$1^2 \times 1$	1
2^3			8
		$3^2 \times 3$	
	$4 \times 4 \times 4$		
			125

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

1^3	$1 \times 1 \times 1$	$1^2 \times 1$	1
2^3	$2 \times 2 \times 2$	$2^2 \times 2$	8
3^3	$3 \times 3 \times 3$	$3^2 \times 3$	27
4^3	$4 \times 4 \times 4$	$4^2 \times 4$	64
5^3	$5 \times 5 \times 5$	$5^2 \times 5$	125

WALT: Use knowledge of multiplication and square numbers to recognise cube numbers.

Plenary

What is $3^2 \times 3^3 =$ **$3 \times 3 \times 3 \times 3 \times 3 = 243$**

How could we write it using powers?

3^5
