

Find the value of the variables.

- | | |
|----------------------|-------------|
| a) $7 + x = 20$ | $x =$ _____ |
| b) $45 - r = 37$ | $r =$ _____ |
| c) $t - 30 = 20$ | $t =$ _____ |
| d) $6g = 24$ | $g =$ _____ |
| e) $50 = 20 + 5 + d$ | $d =$ _____ |
| f) $u - 7 = 34$ | $u =$ _____ |

Write an expression to fit the descriptions.

For example:

15 more than a number.

$15 + f$ or $f + 15$

- a) 10 more than a number.
- b) d plus 25
- c) 50 increased by h
- d) The total of 17 and a number.
- e) The product of 5 and n.
