Maths

Unit 8 – Addition and subtraction.

WALT:

6Nf.09 – Estimate, add and subtract numbers with the same or different numbers of decimal places.

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

I can add and subtract numbers with the same number of decimal places.

I can add and subtract numbers with a different number of decimal places.

I can complete multistep addition and subtraction questions with a different number of decimal places.

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Retrieval Practice

Safia has some number cards.

1	2	1	2

She chooses **two** of the cards to make this statement correct.

Write a number in each box to show which cards Safia chooses.

$$\boxed{1}0\% < \frac{\boxed{1}}{5} < 0.3$$

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Starter – Complete these addition questions.

64 + 37 = **101**

640 + 370 = **1,010**

6.4 + 3.7 = **10.1**

6.4 + 0.37 = **6.77**

What strategies did you use? What do you notice?

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Adding and subtracting numbers with the same number of decimal places.

	1	1		1	1	
	3	4	.	6	5	8
+	7	8	.	7	8	4
1	1	3	.	4	4	2

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Adding and subtracting numbers with the same number of decimal places.

	7	$^{1}2$	.	5	6	$^{1}2$
-	5	3	.	3	4	4
	2	9	.	2	2	8

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

When we add and subtract decimals with different numbers of decimal places we need to be careful how we write them in the columns.

137.8 + 57.356

=

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

137.8 + 57.356

=

		1	1				
	1	3	7	.	8	0	0
+	0	5	7	.	3	5	6
	1	9	5	.	1	5	6

Some people find it helpful to add in the trailing

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

In a relay race, Mr. Tim completed his lap in 12.53 seconds, while Ms. Alice finished her lap in 11.825 seconds. What was their combined race time?

12.53 + 11.825
=

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Mr. Jon started his weekend with $50.00. He bought a sweater for $18.50 and a coffee for $4.25. Later, he returned an old purchase and received a refund of $2.75. How much money does Mr. Jon have now?

$18.50 + $4.25 = $22.75

$50.00 - $22.75 = $27.25

$27.25 + $2.75 = $30.00

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

Check your understanding.

1) 67.98 + 45.45 = **113.43**

2) 83.012 – 12.302 = **70.71**

3) 785.4 – 62.79 = **722.61**

4) 201.2 + 21.982 = **223.182**

Mr. Charlie has $14.64. He buys a coffee for $3.5 and a burger for $7.35. How much money does he have left?

$3.79

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

1. Complete these addition and subtraction questions. Write your workings in your notebook.

a) 34.7 + 68.3 =

b) 78.4 - 56.7 =

c) 159.32 + 653.94 =

d) 454.32 - 123.94 =

e) 43.675 + 86.295 =

f) 865.832 - 354.564 =

2. Complete these addition and subtraction questions with different numbers of decimal places. Write your workings in your notebook.

a) 65.3 + 2.35 =

b) 97.45 - 23.7 =

c) 159.32 + 543.954 =

d) 54.836 - 23.67 =

e) 94.6 + 875.467 =

f) 765.8 - 12.786 =

3. Complete these multistep word questions. Write your workings in your notebook.

a)Mr. Jon ran 100 metres in 12.564 seconds. Ms. Colette ran 100 metres in 11.97 seconds. Ms. Alice ran 100 metres in 12.9 seconds. What is the sum of the differences between Mr. Jon's and Ms. Alice's time and Mr. Jon's and Ms. Colette's time?

_____

b) Mr. Cornel has a piece of string that is 1.5 metres long. He cuts it into three pieces. The first piece is 0.543 metres long. The second piece is 0.72 metres long. How long is the third piece?

_____

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

1. Complete these addition and subtraction questions. Write your workings in your notebook.

a) 34.7 + 68.3 = 103

b) 78.4 – 56.7 = 135.1

c) 159.32 + 653.94 = 813.26

d) 454.32 – 123.94 = 330.38

e) 43.675 + 86.295 = 129.97

f) 865.832 – 354.564 = 511.268

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

2. Complete these addition and subtraction questions with different numbers of decimal places. Write your workings in your notebook.

a) 65.3 + 2.35 = **67.65**

b) 97.45 – 23.7 = **121.15**

c) 159.32 + 543.954 = **703.274**

d) 54.836 – 23.67 = **31.166**

e) 94.6 + 875.467 = **970.067**

f) 765.8 – 12.786 = **753.014**

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

3. Complete these multistep word questions. Write your workings in your notebook.

a)Mr. Jon ran 100 metres in 12.564 seconds. Ms. Colette ran 100 metres in 11.97 seconds. Ms. Alice ran 100 metres in 12.9 seconds. What is the sum of the differences between Mr. Jon's and Ms. Alice's time and Mr. Jon's and Ms. Colette's time?

0.93 seconds

b) Mr. Cornel has a piece of string that is 1.5 metres long. He cuts it into three pieces. The first piece is 0.543 metres long. The second piece is 0.72 metres long. How long is the third piece?

0.237 metres

WALT: Estimate, add and subtract numbers with the same or different numbers of decimal places.

I can add and subtract numbers with the same number of decimal places.

I can add and subtract numbers with a different number of decimal places.

I can complete multistep addition and subtraction questions with a different number of decimal places.
